Prestige Medical Imaging Partners With Xoran Technologies

NEWBURGH, NY – July, 2019 – Prestige Medical Imaging (PMI) the largest independent provider of digital imaging technology and services for medical facilities, is pleased to announce the expansion of their product portfolio to include the latest line of CT Solutions through their new partnership with Xoran Technologies.

"PMI's partnership with Xoran Technologies, allows us to offer a variety of portable cone-beam CT solutions, and the ability to update images in real-time is truly an advantage for our clients" said Bill Hausmann, CEO for Prestige Medical Imaging.

The newest addition to Xoran's line of CT products, the xCAT IQ is the world's most compact and maneuverable iCT (intraoperative CT) designed for neurosurgeons. This cone beam CT for brain and bone window imaging is truly mobile with zero-degree turning, enabling easy maneuverability easily in tight spaces. Innovation doesn't stop at its physical features. The xCAT IQ also delivers ultra-fast scan times with low patient radiation dose.

Laura Dennis, Xoran's Vice-President of Sales and Marketing says "...Xoran is committed to meeting the needs of today's surgeons, helping them provide real-time low dose imaging in the OR, ICU, Neuro, and ER."

Xoran Technologies LLC is the pioneer of low-dose radiation, cone-beam CT scanners for use in-office and operating rooms. Medical doctors around the world rely on their market leading MiniCAT IQ™, xCAT®, and VetCAT™ scanners to diagnose and treat patients.
